

# Online Profile Searching

Fully automated social media screening that protects your reputation

You educate, we support

## How robust is your safer recruitment process?

Does your establishment explore all avenues to ensure that new starters have nothing to hide? With the new guidance in Keeping Children Safe in Education 2022, schools should consider online searches of shortlisted candidates that could find incidents and issues to explore at an interview.

Searching the online profiles of job applicants doesn't need to take up the valuable time of a key member of staff or think too much what acceptable or questionable online behaviours are. Strictly Education can take care of checking social media profiles for job applicants, looking at the posts made on the major social platforms including Facebook, Twitter, Instagram, Medium, Flickr and Tumblr.

## TRY IT FOR FREE

**Want to see for yourself how quick and simple a social media check is from Strictly Education? Claim your FREE check by calling 0330 123 2549 and quoting FREECHECK75.**

## Key Features
